Professional profile

Political Scientist specialized in International Relations and Public Policy, with experience in university teaching, applied research and the formulation of strategic proposals. A career that integrates governance, foreign policy, law of the sea, sustainability and international cooperation, complemented by training in artificial intelligence applied to organizational value creation.

Areas of specialization

- International relations and foreign policy
- Governance and public policy analysis
- Law of the sea and ocean governance
- Sustainability and the 2030 Agenda
- AI applied to organizations

Key skills

- Research and strategic analysis
- Drafting of proposals and plans
- University teaching
- International cooperation
- Evidence synthesis and briefing notes
- Academic and executive communication

Professional and academic experience

Executive Assistant

Pensar Agro Chile

April 2026 – Present

Manages public affairs and relations with sector authorities, including the Undersecretariat of Agriculture, and monitors legislation on agricultural bills with a self-developed monitoring platform. Coordinates joint initiatives and position papers, drafts briefing notes, executive reports and institutional correspondence for the National Congress, and drives the automation of internal processes with artificial intelligence tools.
